## PALL MALL TAX CLASSIFICATION AN APPEAL FOR FAIRNESS

The issue of the tax classification of British American Tobacco's (BAT) cigarette brand Pall Mall continues to be the subject of contention. Despite a Department of Finance (DOF) ruling last July 24, 2007 which affirms the final excise tax rate of P6.74 per pack – the same as other mid-price cigarette brands in the country – Pall Mall continues to labor under an environment of uncertainty.

When we introduced Pall Mall in the Philippine market in August 2004, we did so with a strong belief that we would do business on a level playing field. *Fair competition, a principle which the Philippine government adheres to, and in fact actively encourages and endorses, was a commitment and a pledge made to foreign investors.*

Today, these are all being put to a severe test. The tax classification of Pall Mall is being challenged by our competitors despite the clarity of the tax laws and regulations. There are efforts to mislead the public regarding these issues.

### WHY P6.74 IS THE CORRECT TAX RATE

La Serna, BAT's licensee in the Philippines, has been paying previous tax rate of P5.00 per pack (now P6.74 per pack) for Pall Mall since its introduction in August 2004. This is based on the net retail price as stated in the manufacturer's declaration. Pall Mall, being a mid-price brand, is subject to its respective rate of P6.74 per pack, the same as all other brands in this price bracket.

The law provides for a defined process for the Bureau of Internal Revenue (BIR) to validate and then establish the net retail price through price surveys, and based on this, to determine the final excise tax classification. The first price survey is to be conducted three months from product launch. The second price survey is to be conducted 18 months thereafter for re-validation. The BIR is then required by law to issue the final excise tax classification based on the results of these surveys.

The BIR did not conduct the requisite price surveys within the prescribed periods. The law clearly stipulates that if the BIR fails to conduct the requisite price surveys, the proper tax classification shall be based on the net retail price as stated in the manufacturer's declaration. On this basis alone, Pall Mall should have been granted its final excise classification as a mid-price brand, at a resultant excise rate of P6.74 per pack.

The BIR finally conducted a price survey on December 22, 2006, but only after it was directed by the U.S.F. to do so. This is 28 months after Pall Mall was introduced into the local market.

The BIR's belated price survey showed that Pall Mall was indeed priced within the mid-price segment with an actual gross retail price of P14.00 per pack. This was further confirmed by an independent price survey conducted simultaneously by AC Nielsen in 15 stores in Metro Manila.

Again, despite the very clear results of the price survey – results that validated the tax classification of P6.74 per pack – former Commissioner Jose Maria Baring failed to consider the proper and logical resolution of the matter. Flawing the results of his own survey, Commissioner Baring issued on February 22, 2007 a ruling classifying Pall Mall at the premium segment with an applicable tax rate of P26.06 per pack, almost twice Pall Mall's actual price of P14.00 per pack!

### DUTY FREE EXCISE RATE IS NOT APPLICABLE

Why? Commissioner Baring classified Pall Mall at the premium segment on the sole basis of the rate paid by Duty Free Philippines (DFP) when it imported Pall Mall for sale in its outlets in December 2004, or five months after the locally manufactured Pall Mall had already been introduced into the domestic market.

Again, the public is being misled by erroneous statements and unfounded allegations regarding Pall Mall's entry into the Philippine market. There is absolutely no merit to allegations that imported Pall Mall sold at Duty Free Philippines shops were introduced ahead of the local Pall Mall brand. Local Pall Mall was introduced in August 2004, and Duty Free Philippines began importing Pall Mall in December 2004.

Curiously, Commissioner Baring appeared to have backtracked when, in his letter to the DOF dated June 13, 2007, he admitted that "based on the results of the price survey on (Pall Mall) and its variants conducted last December 22, 2006,

the weighted average net retail prices thereof, excluding the value added and excise taxes, is P6.75 per pack with the applicable excise tax rate of P6.74 (now P6.76)."

### NO DOWNWARD CLASSIFICATION - NO LOSS OF GOVERNMENT REVENUE

Given the question of downward price classification, by which BAT and La Serna have been criticized and put to task, should have been a no-brainer. Downward classification presumes that a brand has been overly classified and that subsequent investigations of the same brand can net have a lower rate than that which has already been established. But as stated, the local Pall Mall was introduced ahead of the Duty Free Pall Mall. And furthermore, there has never a final classification for Pall Mall until the DOF issued its July 24, 2007 decision. Since there is no downward classification in the Pall Mall case, the related allegation of government loss of revenue if the P6.74 rate is maintained is simply not true.

### FAIR COMPETITION / WHAT IT IS ALL ABOUT

If the BIR had its way, and its February 22, 2007 ruling is followed, Pall Mall would be the only locally-manufactured brand that would be paying the highest excise rate of P26.06 per pack.

In essence, this is not what fair competition is all about. The bottom line competition is not reaching to our entry into the local market. The competition that prevails today comes from how proper tax classification, downward classification and a level playing field for all continue to make the growth of foreign investors like BAT. We seek only fairness, and a chance to prove the company providing jobs and business opportunities for Filipinos. We do not seek preferential treatment, nor do we expect any. What we seek is the proper application of the law to all.

We wonder, for instance, why the BIR insists on a tax classification of P26.06 per pack for Pall Mall when it had already established the brand's retail price at P14.00? Haps and Winston have a retail price of P23.00 – higher than Pall Mall's – and yet those brands are taxed at P6.74 per pack!

As for those who quote locally-made brands and Duty Free brands differently, this is nothing unusual. All Duty Free cigarettes are taxed at the highest tax bracket. Marlboro and Pall Mall 800s have a Duty Free Philippines tax rate of P26.06 per pack (premium brands) and yet their local tax rate is only P6.74 (high-price brands). Winston has a Duty Free Philippines tax rate of P26.06 per pack (premium brands) and yet its local tax rate is only P6.74 per pack!

So why must Pall Mall be any different? *It just pays any taxes.*

When BAT entered the Philippine market in August 2004, it did so with a vision of growth and expansion. We remain focused on our goal despite the challenges that have been thrown our way, and we remain hopeful that in the end, fairness and equality will rule the day.

Figure 1: Schematic representation of the experimental design. The diagram shows a sequence of events: 'Stimulus' (a box with a question mark), 'Response' (a box with a question mark), 'Feedback' (a box with a question mark), and 'Outcome' (a box with a question mark). Arrows indicate the flow from Stimulus to Response, Response to Feedback, and Feedback to Outcome. A feedback loop arrow connects Outcome back to Stimulus.

The Armed Forces of the Philippines is the protector of the people and the state. Art. 2, Sec. 23 Philippine Constitution

When in the course of human events, a government becomes destructive of the rights of the people, it is the duty of the people to alter or abolish it, and to institute new government, laying its foundation on such principles and organizing its powers in such form as to them shall appear most likely to effect their safety and happiness.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among these are life, liberty and the pursuit of happiness.

That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed. That whenever any form of government becomes destructive to these ends, it is the right of the people to alter or to abolish it, and to institute new government, laying its foundation on such principles and organizing its powers in such form as to them shall appear most likely to effect their safety and happiness.

Mr. TONY BLOOMBERG announced that he was withdrawing as an independent candidate for the 1994 election in the 11th congressional district. He said he was "not a quitter."

'very' is used to mean 'and' if the other is understood and probably it has not been used beyond where I tell you, because it means 'and, anyway' or 'beside the fact that'.

As a result, many are not taking the time to learn more about the company's products and services. This is a mistake, as it can lead to a loss of sales and a damaged reputation. To avoid this, companies should invest in training and education for their sales and marketing teams. This will help them to better understand the company's offerings and to communicate their value to potential customers. Additionally, companies should also invest in research and development to create new and innovative products and services that will set them apart from their competitors.

# Mystics and quantum physicists speak the same language

BY  
DANIEL MARGULIUS

**Q**uantum physics is the most successful scientific theory ever devised, but it is also the most mysterious. It describes the behavior of matter and energy at the smallest scales, where the rules of classical physics break down. In this article, we explore the deep connections between quantum physics and the mystical traditions of the East.

# Mighty, flighty 'Beowulf'

By Dave Karger

**T**he medieval epic *Beowulf* is a dark, brooding, and often brutal tale of a hero's journey. It's a story of a man who saves the world, but in the process, he loses everything. The movie is a visual feast, with stunning cinematography and a powerful score by John Williams.

# RP an alternative Bollywood film site

By Michael S. Grecco

**F**OR PUNISH PHIL, director of the new Bollywood film *My Name Is Khan*, the site is an alternative for the world's largest film festival.

The new website is open to all, but it's the only one that's open to all. It's the only one that's open to all.

The site is open to all, but it's the only one that's open to all. It's the only one that's open to all.
